

Supported by the Australian Governments' Renewable Energy Target.

Save smart with a **QUALITY SOLAR** system

- ✓ Battery ready
- ✓ 25 year guarantee

We pass on 100% of the Government Subsidy to you | CEC & Solar Vic Approved

Now is the time to invest in solar

More than 1.8 million Australians have minimized their power bill by installing solar. And it makes sense.

Solar Victoria provides a rebate of \$1400 for installing solar PV. To further reduce installation costs, eligible owners can apply for an interest free loan equal to the value of their rebate amount to be paid over 4 years or sooner at no additional cost.

FREE solar saving assessment

How much can solar save you? Don't overpay for a system you don't need.

Our team of energy experts can conduct a **FREE** detailed assessment of your home's energy needs and sun exposure.

See how much a solar system can save your home's energy bill.

Annual energy cost saving:

\$1,073 p.a.*

Average system payback in:

2.4 years

Performance guarantee:

25 years

The Small-scale Renewable Energy Scheme creates a financial incentive for Residential and Small Business customers to install eligible small-scale renewable energy systems such as solar panel systems. It does this through the creation of small-scale technology certificates which need to be assigned to Sailax Group Pty Ltd, which is fully passed on to the customer by way of a lower Solar system and installation purchase price. The level of this benefit differs across the country depending on the level of solar energy. Small-scale technology certificates can be created following the installation of an eligible system, and are calculated based on the amount of electricity a system produces or replaces (that is, electricity from non-renewable sources).

A trusted smart solar system, guaranteed to perform

Sailax Group Pty Ltd is a CEC Accredited Solar Retailer. Our installation team has installed energy efficient solutions in over 100,000 homes across Australia.

Services Include:

- Free energy assessment and quote.
